

**DEPARTMENT OF ENVIRONMENTAL SERVICES NEW HAMPSHIRE
WASTE MANAGEMENT DIVISION**

Contractors - Cleanup, Removal & Tank Cleaning

This is not a list of prequalified contractors. Nor is it a complete list of contractors, and it does not constitute an endorsement of those on the list, nor for any reason a statement against any firm not on the list. Any contractor may be retained who can perform the desired service. All of the contractors listed may, or may not be able to perform the desired service. Contact should be made with several to determine the service that can be provided, and the price range. For best results, and to avoid problems, a contractor with experience with the particular service to be performed, and with the governmental requirements, should be hired. Note: Env-Wm 1401 requires any contractor closing or installing a UST system must be certified by the International Fire Code Institute (IFCI). PLEASE REQUEST IFCI CERTIFICATION STATUS FROM ALL CONTRACTORS YOU CONTACT.

Contractors - Cleanup, Removal & Tank Cleaning

This is not a list of prequalified contractors. Nor is it a complete list of contractors, and it does not constitute an endorsement of those on the list, nor for any reason a statement against any firm not on the list. Any contractor may be retained who can perform the desired service. All of the contractors listed may, or may not be able to perform the desired service. Contact should be made with several to determine the service that can be provided, and the price range. For best results, and to avoid problems, a contractor with experience with the particular service to be performed, and with the governmental requirements, should be hired. Note: Env-Wm 1401 requires any contractor closing or installing a UST system must be certified by the International Fire Code Institute (IFCI). PLEASE REQUEST IFCI CERTIFICATION STATUS FROM ALL CONTRACTORS YOU CONTACT.
